

Irina Mihaela Pelin

Researcher

E-mail: impelin@icmpp.ro, impelin@gmail.com

Research topics: organic/inorganic composites, calcium orthophosphates (hydroxyapatite), modification of polysaccharides, biomaterials.

Researcher ID: B-6030-2012

Scientific research: 25 ISI articles, 1 book chapter, 144 citing articles (131 without self-citations), more than 40 participations at national/international conferences, director of a young PhD Student project and of a Postdoctoral research project, member in 14 national and 2 bilateral projects, and beneficiary of a postdoctoral fellowship at INSA Lyon- France (2009-2010).
