

Curriculum Vitae

PERSONAL INFORMATION:

Dr. Daniela PAMFIL

Nationality: Romanian;

Gender: Female;

E-mail: pamfil.daniela@icmpp.ro

BrainMap ID: U-1700-037M-2012

EDUCATION and TRAINING:

Dates: 2011 – 2016; **Title of qualification awarded:** Doctor in chemistry; **PhD Thesis title:** “*New biomaterials responsive to external stimuli containing proteins*”; **Supervisors:** Dr. Cornelia Vasile and Dr. Maria Cazacu; **Defense date:** May 9, 2016; Web page address of thesis abstract: http://www.icmpp.ro/files/Rezumat_teza_Pamfil_Daniela.pdf; **Name of organization:** “Petru Poni” Institute of Macromolecular Chemistry, Iași, Romania.

Dates: 2009 – 2011; **Title of qualification awarded:** M. Sc.; **Principal subjects/Thesis title:** Prosthetic Bioengineering/“*Hydrogels obtained by the polymerization of HEMA with collagen functionalized by reaction with citraconic anhydride and 2-dimethyl maleic anhydride*”; **Name of organization:** “Gr. T. Popa” University, Faculty of Medical Bioengineering, Iași, Romania.

Dates: 2005 – 2009; **Title of qualification awarded:** B. Sc.; **Principal subjects/License title:** Biomaterials and Prosthetic Technology/“*Hydrogels based on collagen and poly (N-isopropyl acrylamide) with applications in burn healing*”; **Name of organization:** “Gr. T. Popa” University, Faculty of Medical Bioengineering, Iași, Romania.

PROFESSIONAL EXPERIENCE:

Dates: Febr. 2019 – present; **Research Scientist;** **Name/address of employer:** “Petru Poni” Institute of Macromolecular Chemistry / Grigore Ghica - Vodă Alley, no. 41 A, 700487 Iași, Romania.

Dates: 2014 - 2019; **Research Assistant;** **Name/address of employer:** “Petru Poni” Institute of Macromolecular Chemistry / Grigore Ghica - Vodă Alley, no. 41 A, 700487, Iași, Romania.

SCIENTIFIC RESEARCH:

| | |
|--------------------------------|--|
| Field of research | - Design, synthesis and physico-chemical characterization of multifunctional polymeric systems (smart hydrogels, biodegradable systems, biocomposites, hybrid systems, drug-cyclodextrin inclusion complexes) with applications in tissue engineering and controlled drug delivery systems. |
| Publications | - Author/co-author of 18 ISI ranked articles in peer-reviewed journals (4 articles as main author; total impact factor: 59.36), 1 book published in CNCSIS Recognized Publishing Houses (Tehnpress), 3 book chapters published in John Wiley & Sons, Inc. (2015), Springer (2018), and ELSEVIER (2019). |
| Scientific contribution | - Main author of 15 presentations at national/international scientific meetings (9 oral communications, 6 posters); co-author of 15 presentations at national/international scientific meetings (8 oral communications, 7 posters). - Scientific visibility: Hirsch-index: 7 (according to Web of Science Core Collection), 7 (according to SCOPUS), 7 (according to Google Scholar); Sum of the times cited: 91 (according to Web of Science Core Collection, October 2019). |

- Member in **6 research project**: Romania - Norway EEA Grants *ACTIBIOSAFE nr. ISEE/30.06.2014* (2014 - 2017); Erasmus + TL-IRMP 2014-1-PL01-KA203-003611 (2014 – 2017); PN II Partnership Program *BIONANOMED nr. 164/2012 UEFISCDI* (2012-2016); Romania - Slovenia PN II Bilateral Program FPSNewPack nr. 525/14 06 2012 UEFISCDI (2012 – 2013); PN-III-P1-1.1-TE-2016-2038 (2017 – 2020); Internal Research Grant of “Gr. T. Popa” University nr. 29025/2016 (2017 - 2018).

PERSONAL SKILLS AND COMPETENCES:

| | |
|---|---|
| Technical skills <i>Trained to use the following instruments:</i> | Cary60UV-Vis spectrophotometer, Bruker Vertex 70 spectrophotometer, Adhesion tests with TA.XT Plus Texture Analyzer, DSC Mettler Toledo, Agilent 708-DS Dissolution tester, CAM-200 Goniometer, Anton Paar MCR301 rheometer, L100-5000 Gas Permeability, ER12 respirometer. |
|---|---|

Significant and representative scientific achievements

I dedicated my research career to studies on design, synthesis and characterization of multi-component polymeric systems, especially hydrogels and smart materials. A large part of Master research was developed within an abroad scholarship in United Kingdom for a period of five months (from 01/02/2011 to 30/06/2011) at the **Portsmouth University by the Erasmus – Socrates program**. A mobility as PhD was performed at the **University of Maribor from Slovenia** within the bilateral project FPSNewPack nr: 525/2012, period Nov. 19, 2012 – Dec. 01, 2012, where I achieved **skills in potentiometric titration and evaluation of the total organic and nitrogen of some polymeric materials**. This experience conducted to the firsts scientific results obtained during the PhD stage consisted in a **paper published (as first author)** in a high impact factor journal in the field (*Industrial & Engineering Chemistry Research*, 2014). I had the opportunity to participate on the Short Term Scientific Mission within the COST Action FA0904 scientific program, from 14/01/2013 to 28/02/2013, at the **Rostock University, Germany**, where I gained **competences in thermal analysis by differential scanning calorimetry and thermogravimetry**. The obtained results through this experience were valued by publishing an article in *Thermochimica Acta Journal*, 2014. I tooked part at the intensive courses within the project Erasmus + TL-IRMP 2014-1-PL01-KA203-003611 “**Joint innovative training and teaching/learning program in enhancing development and transfer knowledge of application of ionizing radiation in materials processing**” which consisted in 2 internships in: **Poland, Warsaw** (Sept. 05 – 19, 2015) and **Italy, Palermo**, (Sept. 27 – Oct. 04, 2015). A participation at the Training School within the SimInhale COST Action MP1404 entitled “**The emerging role of fluid-particle dynamics and reduced methods in the context of in silico population studies for pulmonary drug development**” in Athens, Greece (Oct. 02 - 04, 2017) was also performed.
